

Black & White ONE CTM.

thermoplan
Swiss Quality Coffee Equipment

Compact with a large capacity.

Good things come in small packages is true when it comes to our ONE.

This compact machine has all the same features of the Black&White3 and is fully automatic, perfect for busy operators who don't have the space for a bigger machine.

| Weight (kg) | 43 |
| Voltage (Volt) | 230 |
| Power (Watt) | 2800 |
| Dosage System | Automatic |

Modular Design.

Maintenance can be carried out quickly and cost-effectively. All modules are instantly exchangeable, a unique concept for coffee machines.

Cool Milk.

The unique 'wendel' milk system prepares unique milk foam with breathtaking consistency - marvellously creamy and firm.

Reliability.

Durable aluminium grinder with hardened steel burrs.

Strong Stuff.

Solid stainless steel brewing unit and stainless steel front.

Touch-tech.

Customisable 7" LED colour touch screen with clear menu display.

Energy Saving.

With "energy save" technology you reduce operating costs while conserving resources and preserving the environment.

Easy Cleaning.

Semi-automatic cleaning system with step-by-step instructions for a simple and consistent approach to maintenance.
